LOCATION OF PROPOSED WORK: 7799 Earhart Road, Hangar 10

BRIEF DESCRIPTION OF PROPOSED WORK: Maintenance and repair of ramp paving on the leased property. The work includes grinding of existing asphalt pavement, removing 3-6 inches, and replacing with new asphalt pavement. The project area is approximate 78,000 square feet, adjacent to the existing hangar. The project has been determined to be Cat Ex. pursuant to CEQA Guidelines Sections: 15301-maintenance and repair to existing facilities with no expansion of use. This permit does not trigger the need for post construction stormwater controls because the ramp repair does not extend to the subgrade.
