LOCATION OF PROPOSED WORK: 1 Airport Drive, Terminal 2

**BRIEF DESCRIPTION OF PROPOSED WORK:** Construction of improvements to the "T-Point" checked baggage screening area between Terminals 1 and 2. The work is to reconfigure and add to the existing space, going from one belt running parallel to Airport Drive to 3 belts running perpendicular. Work includes addition of new canopy, approximately 4990 sq. ft., new belts and screening equipment, and installation of related electrical, data, and fire water and alarm services. connections to the Terminal building. The project will fill in the gap in the wall along the sidewalk between Terminals 1 and 2, remove the temporary fencing, and complete the sidewalk. This project has been determined to be exempt from the requirements of the California Environmental Quality Act pursuant to Sections 15301, Class 1(e), Addition to an Existing Structure.

**SUSTAINABILITY:** This project will follow current Green Building and Energy Codes as enforced by the City of Oakland, as well as the construction debris recycling requirements. The project includes installation of site design measures to reduce pollution, stormwater runoff peak flows and volumes, and other impacts. No other sustainability measures are being considered outside the scope of this project.
